

## World's Leading Computerized Key Control System

Total accountability.  
Secure access.  
Tamperproof. These are  
the reasons thousands of  
dealerships around the  
world count of KeyBank  
to protect their keys and  
reduce their liability.

KeyBank is the best  
selling, computer-ized key  
control system. Developed  
by Morse Watchmans, the  
world leader is key control  
and security management.

The industry-tested and trusted KeyBank®  
system is designed to help you to:

- Never lose a sale because someone can't find the keys
- Eliminate key and remote replacement costs
- Eliminate the mess and hassles of pegboards and lock boxes
- Dramatically reduce liabilities for theft and possibly reduce floor plan insurance premiums
- Reduce or eliminate mystery mileage and damage
- Check the status and location of vehicle inventory in real time, any time
- Analyze vehicle demo histories to find slow movers
- Analyze sales force performance on demos
- Create audit trails
- Protect assets

Secure...

# Scalable

## KEY CONTROL

*Lock Up the Keys!*

KeyBank is the perfect total key management system for your new or used car dealership, service department or rental car fleet.

Because the KeyBank system is scalable and expandable, no matter what your key control needs may be...from 125 to 2,000 keys... KeyBank is the system you need for reliable access and control.

# KEYBANK

**Secure.  
Tamperproof.**

The KeyBank steel cabinets are designed to resist abuse and are wired to alarm against tampering. Control access with the keypad or biometric fingerprint reader.

**Plus each unit is supported by a 72 hour backup power supply.**

## SCALABLE

## SECURE

### Keys Easy to Locate

With KeyBank, no more confusion or worry about misplaced keys. Illuminated key slots make locating a key easy within the system. And the random key return lets you return any key to any slot. Smart Keys with locking mechanisms and memory checks add a further level of security.

### Real Time Reports

Track and control keys with KeyBank's reports such as:

- **Vehicle Inventory** - Determine a vehicle's status, the real time location of vehicles, the fast/slow movers and evaluate your sales force.
- **Vehicle History** - Track a vehicle's mileage. See how many times each vehicle is shown and who has driven which car and when.
- **Employee History** - Analyze the number of demo drives, determine the effectiveness of your sales team, and know how many vehicles each employee has out on loan.

## KEY CONTROL

### Connect to PC or Network

Dealerships love the versatility of KeyBank. The system can stand-alone or interface with the dealership's PC, network or in-house system. KeyBank is also modular so you add units as needed. And because the system is wall-mount-ed, you free up valuable floor space.
